Copy No. 5 of 5 copies Series A

NY 48-1

CONFIDENTIAL

February 2, 1943 TTC:bth

National Carbon Company
30 East 42nd Street
New York, New York

Attention Mr. V. J. Nolan

Gentlemen:

E. I. DuPont de Nemours & Company has been requested to place a purchase order covering 358 tons of graphite 4 1/8 x 4 1/8 x 50", which is part of the 1,040 tons now in process in the above size. This material will be delivered to Tennessee and complete shipping instructions will accompany the DuPont purchase order.

The 582 tons of graphite 4 1/8 x 4 1/8 x 50", which is already covered by Stone and Webster purchase order, is to be shipped to the University of Chicago in accordance with instructions contained in the above purchase order.

It is understood that DuPont has already issued the purchase order covering the experimental 40-ton lot in the 6 1/8 x 6 1/8 x 50" size. It is also believed that specifications as to size for future production will be received in the near future so that your current production may be resumed.

For the District Engineer:

Very truly yours,

THOMAS T. GREENSHAW
Lt. Col., Corps of Engineers
Assistant

cc: Mr. Roger Williams,
of the DuPont Company
