PUBLIC MEETING

Knowing of your interest in the Weldon Spring Site Remedial Action Project, I would like to invite you to a public information meeting co-sponsored by the U. S. Department of Energy and the U. S. Environmental Protection Agency at 7:30 p.m. on Tuesday, December 6, at the Young Auditorium at Lindenwood College. Members of the various state agencies providing regulatory overview of the project will also be in attendance.

Topics to be presented will include the recently released environmental compliance Work Plan. The Work Plan lays out the activities and process which must be carried out in order to reach site cleanup decisions. Another topic to be presented will be a status report on site Interim Response Actions or IRA's. IRA's are those near term activities that are undertaken to improve environmental conditions at the site.

Presentations will be short and will be followed by a question and answer period. All interested individuals are invited to attend.

I look forward to your attendance at this meeting.

Sincerely,

Rodney R. Nelson
