George V. Voinovich
Governor

Date: JAN 0 3 1995

Dear Sir/Madam:

Please find a copy of the data sheet on the back of this letter and the provisional United States Environmental Protection Agency (U.S. EPA) Identification (ID) number that was assigned. Please examine all the information on the reverse side carefully. If there are any discrepancies, please contact us as soon as possible.

The identification number issued by the agency can be used for only this specific ***one-time event***. The use of the provisional number for any other purpose is illegal. After completion of the job, please notify the Ohio EPA **in writing**, at the address below, to have the number deactivated from our list. If there is a possibility of regular hazardous waste generation in the future at the same site, it is recommended that you obtain a permanent U.S. EPA ID number for your site. A permanent number is obtained by completing a Notification of Regulated Waste Activity (8700-12) form. The form and booklet can be obtained from the Ohio EPA at the address below.

It is possible that, depending on the type of waste and the quantity that was shipped, you may be subject to reporting requirements. Ohio hazardous waste rules require anyone who generates 1000 kg (or 2200 lbs, or approximately 263 liquid gallons) of non-acute hazardous waste in a calendar month to submit a *Generator Annual Report* to the Ohio EPA. It is your responsibility to determine if the reporting requirements are applicable to you and to notify the Ohio EPA. Failure to submit reports may result in enforcement action. If there are any questions regarding reporting requirements, contact Ms. Paula Canter at the phone number listed below.

If you have any questions regarding the identification number, please contact the Data Management Section at 614/644-2977. The mailing address is:

Ohio EPA
Division of Hazardous Waste Management
Data Management Section
1800 WaterMark Drive
Columbus, Ohio 43215-1099

Thank you for your cooperation in the hazardous waste program.
