THE UNITED STATES DEPARTMENT OF ENERGY ANNOUNCES THE AVAILABILITY OF THE ADMINISTRATIVE RECORD

WELDON SPRING SITE, ST. CHARLES COUNTY, MISSOURI

The U.S. Department of Energy (DOE) announces the availability for public review of files comprising the administration record for the selection of the remedial action at the Weldon Spring Site, St. Charles, Missouri. DOE seeks to inform the public of the availability of the record at this repository and to encourage the public to comment on documents as they are placed in the record.

The administrative record includes documents which form the basis for the selection of any remedial action at this site. Documents now in the record include preliminary assessment and site investigation reports, validated sampling data, RI/FS work plan, and the community relations plan. Other documents will be added to the record as site work progresses. These additional documents may include, but are not limited to, the RI/ FS-EIS report, other technical reports, additional validated sampling data, comments and new data submitted by interested persons, and DOE responses to comments.

The administrative record is available for review during normal business hours:

WSSRAP
Community Relations Department
Route 2, Highway 94 South
St. Charles, Mo. 63303

Additional information is available at the following location:

United States Environmental Protection Agency
Region VII
726 Minnesota Ave., Kansas City, Ks. 66101
Guidance Documents and Technical literature

Written comments on the administrative record should be sent to:

Rod Nelson, Project Manager
Weldon Spring Site Remedial Action Project
U.S. Department Of Energy
Route 2, Highway 94 South
St. Charles, Missouri 63303
(314) 441-8086
