RE: **REMEDIAL DESIGN/REMEDIAL ACTION WORK PLAN FOR THE INTERIM REMEDIAL ACTION FOR THE GROUNDWATER OPERABLE UNIT REV. B, MAY 2001**

Dear Ms. Thompson:

The Missouri Department of Natural Resources has finished its review of the above referenced document. One comment was generated from this review. The department suggests adding a section to include monitoring nearby groundwater and area springs for possible contaminant migration. This monitoring would be similar to that performed in the additional groundwater field study currently underway.

If you have any question pertaining to this comment, please feel free to contact Branden B. Doster, of my staff, at (573) 526-2739.

Sincerely,

HAZARDOUS WASTE PROGRAM

for Ben Moore, Project Manager
Federal Facilities Section
