SUBJECT: Contract No. DE-AC05-86OR21548
PILOT PUMPING TEST FOR THE GROUNDWATER OPERABLE UNIT AT THE WELDON SPRING SITE

Dear Mr. McCracken:

The referenced Plan is being provided for your review and comment. This plan discusses the testing program for investigating the aquifer response to groundwater pumping and withdrawal at the Weldon Spring Chemical Plant Area. The plan designates that a pumping well and several piezometers be installed, groundwater be sampled for trichloroethene (TCE) and other specific parameters, and testing be conducted to determine aquifer properties. The proposed start date for field activities is May 1, 1998.

If you have questions, please contact Julie Reitinger at extension 3522 or Mark Thompson at extension 3548.

Sincerely,

Douglas E. Steffen
Project Director
