OPERABLE UNIT NO. 1 (OU 1), 881 HILLSIDE TECHNICAL MEMORANDUM NO. 7, PUBLIC HEALTH BASELINE RISK ASSESSMENT; DESCRIPTION OF FATE AND TRANSPORT MODELS AND SUMMARY OF DATA TO BE USED WITH MODELS - JEE-0364-92

As required by the Interagency Agreement (IAG), enclosed is the Technical Memorandum that describes the fate and transport models to be used for estimating exposure, and summarizes the data to be used in modeling in the Baseline Risk Assessment. Technical Memorandum No.7 does not include Phase III RCRA Facilities Investigation/Remedial Investigation (RFI/RI) data in the summary because only limited data from Phase III are available from the laboratory system at this time. This condition is mentioned several times in the document.

We are prepared to deliver copies of this Technical Memorandum to the regulatory agencies as soon as we receive your official transmittal letter.

If you have any questions regarding this transmittal, please contact D. M. Smith of the Remediation Programs Division at extension 8636.

J. E. Evered, Director
Environmental Management
