TRANSMITTAL OF THE OPERABLE UNIT NO. 2 (OU 2) DRAFT TECHNICAL MEMORANDUM NO. 10, TOXICITY ASSESSMENT FOR RISK ASSESSMENT - WSB-310-93

Two copies of the draft of Technical Memorandum (TM) No. 10 for the Phase II RCRA Facilities Investigation/Remedial Investigation (RFI/RI) for Operable Unit (OU) 2, 903 Pad, Mound and East Trenches Areas, are enclosed for your review. This TM outlines the toxicity assessment that will be used to assess human health risks at OU 2 for the Phase II RFI/RI Report. This TM was held as agreed to by the DOE/RFO Project Manager to allow time necessary to incorporate processes defined during OU 1 data analysis concerning professional judgement into the preceding TM 9 Chemicals of Concern.

This TM will be submitted to the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) for their review and approval before formal submission of the draft RFI/RI Report for OU 2 per the Interagency Agreement. Please provide comments on this TM by July 30, 1993, so that the document can be revised and submitted to EPA and CDH in a timely manner.

If you have any questions or comments, please contact A. L. Primrose of Remediation Project Management at extension 8618.

W. S. Busby
Acting Director
ERM/Remediation Project Management
