SUBMITTAL OF THE DRAFT TECHNICAL MEMORANDUM NUMBER 1 - DATA COMPILATION VOLUMES 1 AND 2 FOR OPERABLE UNIT 8 - 700 AREA – WSB-046-94

EG&G Rocky Flats, Inc. is submitting the attached Draft Technical Memorandum (TM) No. 1 - Data Compilation Volumes 1 and 2 for Operable Unit (OU) No. 8 - 700 Area. The TM No. 1 for OU 8 is submitted to meet the requirements of the Field Sampling Plan in the Phase I RCRA [Resource Conservation & Recovery Act] facility investigation/remedial investigation Work Plan dated December 1992. The TM is a data compilation of footing/under drains for the industrialized area at Rocky Flats. This TM will be the basis for supporting OUs 9, 10, 12, 13, 14, and the Industrial Area interim measures/interim remedial action.

EG&G has established a review period of six weeks from this transmittal date. Written comments are due to EG&G Remediation Project Management (RPM) by May 27, 1994. Comments received after May 27, 1994 will not be considered unless prior arrangements have been made with RPM. This version of the TM for OU 8 is not intended to be distributed to the regulatory agencies. However, the Department of Energy/Rocky Flats Office (DOE/RFO) may chose to send this to the agencies to expedite future reviews and to inform the regulatory agencies on progress, to date, on the OU 8 project. If DOE/RFO chooses to send this to the regulatory agencies, EG&G would like to be copied on the transmittal letter in order to prepare for comment resolution.

One complete copy of this TM, Volumes 1 and 2, is attached with this transmittal. Another three copies were hand delivered to S. Slaten of DOE/RFO on April 15, 1994. EG&G can provide additional copies, as requested.

If you have any questions or require additional information regarding this matter, please contact B. D. Peterman, of my staff, at extension 8659.

W. S. Busby
Director
ERM/Remediation Project Management
