DOE ORDER # 5400.1

States Government

emorandum

Department of Energy
Rocky Flats Field Office

AMESHPA:DFG:09959

Individual Hazardous Substance Site Groups 117.3 and 152

John Hill, Vice President
Environmental Restoration and Waste Management
Kaiser-Hill Company, L.L.C.

The Department of Energy is in receipt of two Memoranda titled "Reclassification of Individual Hazardous Substance Site (IHSS) 152, TGH-049-96" dated March 13, 1996, and "No Further Action/No Further Remedial Action Designation - TGH-078-96", dated April 8, 1996. Both Memoranda reference the decommissioning of fuel oils tanks T221 and T224.

The first memo asks that DOE request Regulatory approval to reclassify IHSS 152 from being listed as an individual hazardous substance site covered under CERCLA and RCRA to an unclassified petroleum contaminated area covered under the Colorado Petroleum Storage Tanks Act. The second memorandum presents No Further Remedial Action (NFA) criteria for IHSS 117.3, and requests that the regulatory agencies concur with this NFA assessment.

DOE agrees in principle with this strategy, however, there is currently no approved criteria for reclassifying IHSS 152 without doing remediation and proceeding through the NFA process. In addition, it does not seem reasonable to reclassify IHSS 152, when it is in fact contaminated by petroleum products, and request NFA based on the lack of contamination on the overlapping IHSS 117.3.

DOE requests that Kaiser-Hill proceed with this project, doing the tank decommissioning and subsequent petroleum contaminated soils cleanup under the auspices of the Colorado Petroleum Storage Tanks Act. After the site is clear and soils removed or remediated, NFA criteria may be applied and both IHSS's closed.

This request is not intended to change the current scope, cost, or schedule of the contract. If you believe that there will be such an impact, you should immediately notify the COR and the Contracting Officer and not implement this request.

For additional information or coordination, please contact Dave George of my staff at extension 5669.
