RE Approval - Final Proposed Action Memorandum Hot Spot Removal Rocky Flats Technology Site Operable Unit No 1 September 1994

Dear Mr Slaten

The Colorado Department of Public Health and Environment Hazardous Materials and Waste Management Division (the Division) has reviewed the DOE s September 20 1994 response (94-DOE-10060) to our September 19, 1994 letter disapproving the above Operable Unit 1 (881 Hillside) Proposed Action Memorandum (PAM) Hot Spot Removal

The Division finds that the DOE response letter and enclosed revised Section 5 1 5, Applicable or Relevant and Appropriate Requirements of the PAM adequately addresses our concerns The revised PAM text specifically recognizes the Division s authority to require compliance with all requirements of the Colorado Hazardous Waste Act and its regulations during all phases of the implementation of this PAM Therefore, the Division hereby approves this PAM

The Division is approving this PAM with the understanding that the Final PAM will be reissued, with the revised language and all appropriate corrections to Table 5-1, no later than September 30, 1994 The revised Table 5-1 must include citations for all CRWA regulations directly applicable to this accelerated response action regardless of whether they are identical to Federal regulations

If you have any questions regarding these matters please call Jeff Swanson of my staff at 692-3416

Sincerely,

Jeff Swanson for

Joe Schieffelin
