My name is Marcia Bryant.

[redacted]

I am concerned about the availability of (a copy of) this plan to the public. As a concerned citizen I would like to be given the chance to review this document on my own time.

I also wish the documents concerning safety & health concerns be made available to the public. Constant exposure to plutonium is an immediate threat to Rocky Flats workers as well as members of the community.

I feel the only way to clean up Rocky Flats is to close it down.

Thank you
