MONTHLY ENVIRONMENTAL COMPLIANCE REPORT - JGD-0599-93

Attached is the monthly Environmental Compliance Report dated April 5, 1993 as required by the Environmental Compliance Program. Environmental Compliance Reports cover the period from the 16th through the 15th of each month and is due on the 5th day of the month following.

The data in this report is based on data in the Plant Action Tracking System (PATS). Until system upgrades are completed and all environmental compliance information is included in the system, this report will be deficient and incomplete with regard to environmental issues reported as tracked. The accuracy and completeness of the reports is scheduled to consistently improve over the next six months as critical milestones are completed. An action plan for assuring completion of these tasks has been prepared and will be tracked as a deliverable under the Rocky Flats Office Ten-Point Action Plan.

Improvements in format and content continue to be made to this report based on the suggestions from reviewers. Additional comments are requested and should be telephoned to Pam Goode, Environmental Standards Analysis, at extension 6035 or sent to Pam's attention at mailstop T130B.

J. G. Davis
Associate General Manager
Standards, Audits, and Assurance
