MEMORANDA

"SAY IT IN WRITING"

MESSAGE: RE: RESPONSE TO BOULDER SCIENTISTS ARTICLE

I've directed both Margaret Hickey and Nancy Daughtry to fold our responses to the Boulder Scientists into the scheduled EA process. Thus our response will not be campaigned as a separate effort. I think this action is appropriate and it also provides relief to already thin resources, i.e. people. Weston concurs w/ this action and feels the information we've prepared to date is sufficient for his present needs.

Please brief Wayne so he's advised.

MESSAGE:

Pat -

We've prepared a technical response to the Boulder Scientist paper on the FBI. I'm am having the information incorporated into the FBI EA process You may want to look @ it to better field inquiries — also you may want to use it as the basis of an RTI on this topic.

let me know.
