OCT 1 8 2007

MEMORANDUM FOR DAVE GEISER, DEPUTY DIRECTOR, OFFICE OF LEGACY MANAGEMENT

FROM: RICHARD P. BUSH, ENVIRONMENTAL COMPLIANCE LEAD RPB

SUBJECT: Approval of FY 2008 Environmental Management System Goals and Initiatives

In accordance with the requirements of the DOE LM Environmental Management System Description, the EMS goals and initiatives for FY2008 are attached for your formal approval. These goals were drafted by the EMS Core Team and finalized on August 7, 2007. The FY2008 goals were presented to Stoller and DOE LM management during the annual EMS Management Review presentations on August 27 and August 30, respectively.

These goals and initiatives align with DOE Order 450.1, Environmental Protection Program, and the President's Executive Order (EO) 13423, Strengthening Federal Environmental, Energy, and Transportation Management. EO 13423 was issued on January 24, 2007, and supersedes and revokes several previous Executive Orders and Presidential Directives. Currently, DOE is revising 450.1 to incorporate the robust goals established in the EO for energy efficiency, waste minimization, pollution prevention, and natural resource conservation.

FY 2008 Environmental Management System Goals and Initiatives

Goals
1. Reduce copier/printer paper use at DOE-LM sites by 5% per employee.
2. Reduce travel to DOE-LM sites by 5% (actual travel compared to budgeted travel).
3. Enroll one additional DOE-LM site in a renewable energy program.
4. Increase renewable energy use at two DOE-LM sites by 5%.
5. Use two additional green products at any DOE-LM sites.
Initiatives
1. Study feasibility of installing additional solar-powered equipment at DOE-LM sites; establish new target by April 1, 2008.
2. Study feasibility of reuse/regeneration of the ion exchange resin at the Fernald site's Converted Advanced Waste Water Treatment facility; establish new target by April 1, 2008.
3. Study feasibility of changing the DOE-LM GSA fleet to more fuel efficient vehicles; establish new target by April 1, 2008.

Approvals:
