RE: Draft Compendium of In-Situ Radiological Methods and Applications at Rocky Flats Plant

Dear Mr. Schassburger,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced document submitted by DOE and its prime operating contractor, EG&G. This review incorporates comments received by the Division from the Rocky Flats Technical Review Group.

In general, the Division believes that this document is a step forward in improving the technical basis for remedial investigations being conducted at the Rocky Flats plant. However, there is significant room for improvement, as shown by the the detailed comments.

If you have any questions or comments, please contact Jeff Swanson of my staff at 692-3416.

Sincerely,

Gary W. Baughman
