ROLLING SCHEDULE

SYMBOL: PC:RJS:hh

RESEARCH & DEVELOPMENT (GEN)

FEBRUARY 21 1952

4 (hh)

Please be advised that arrangements have been made with Allegheny Ludlum to roll at their Watervliet, N. Y. plant on the first week-end of each month, March through June 1952, and with Bethlehem Steel to roll at their Lackawanna, N. Y. plant on the second week-end of the month. I would suggest, however, that you verify with Mr. R. S. Stewart of NLO the date of each month's rollings a week or so prior to the scheduled dates to provide for unforeseen contingencies.
