Dear Mr. Murtha:

This response to your June 16, 1986, letter requesting information on the Apollo site or the Parks Township burial site in Pennsylvania is provided for your use in responding to inquiries from a constituent, Ms. Cindee Virostek.

In regard to item 9 of the constituent's letter, the Department of Energy (DOE) does not have authority to perform remedial action for either the Apollo or the Parks Township sites. A list and the locations of the sites at which the DOE has authority to perform remedial action under the Formerly Utilized Sites Remedial Action Program is enclosed, together with the remedial status of these sites. The Nuclear Regulatory Commission should be contacted for information on items 1 through 8 of the constituent's letter.
