TRANSMITTAL OF THE CLOSEOUT RADIOLOGICAL SURVEY REPORT AND THE NON-RADIOLOGICAL CLOSEOUT REPORT FOR BUILDINGS 727, 782 and 783 - BWM-002-00

Enclosed are four copies of the Closeout Radiological Survey Report and four copies of the Non-Radiological Closeout Report for Buildings 727, 782, and 783. These reports are for the Rocky Flats Field Office (RFFO) and Colorado Department of Public Health and Environment (CDPHE) review and approval.

The reports demonstrate that Buildings 727, 782 and 783 meet free release criteria for radiological constituents, and that all Contaminants of Concern (COC) within these Buildings, have been identified, removed or remediated to below regulated levels. Therefore, Buildings 727, 782 and 783, can be released for demolition.

We would appreciate notification of your transmittal of the documents to CDPHE, and of their subsequent approval, in order that timely demolition of these final 779 Cluster Buildings can be initiated.

If you have any questions, please contact me on extension 3432, or John Whiting on extension 7592.
