

United States Government

memorandum

11239

MA-15

DATE: AUG 29 1994
REPLY TO: EM-421 (W. A. Williams, 427-1719)
ATTN OF:
SUBJECT: Elimination of the Sites from the Formerly Utilized Sites Remedial Action Program

TO: The File

In 1990, with the assistance of Mr. Doug Tonkay and Ms. Michelle Landis, I reviewed a number of sites that had formerly provided goods and/or services to the Fernald facility as subcontractors. For 24 of these sites, recommendations were made to eliminate them from further consideration under Formerly Utilized Sites Remedial Action Program (FUSRAP). In each case, I made or reviewed the evaluation, and, in each case, a handwritten evaluation was prepared. This is to provide a more formal record of the decision on these sites and to ratify and confirm the prior elimination of each site from FUSRAP.

The sites are as follows:

- American Machine and Metals, E. Moline, IL
- American Steel Foundries, Cincinnati, OH
- Bendix Aviation Corp., Davenport, IL
- Besley-Wells Co., Beloit, WI
- R. Brew Company, Concord, NH
- Cincinnati Milling Machine, Cincinnati, OH (*)
- Fenwal, Ashland, MA
- Food Machining Corp., Nitro, WV
- General Electric Plant, Shelbyville, IN (*)
- Gleason Works, Rochester, NY
- C.I. Haynes, Cranston, RI
- Heald Machine Co., Worcester, MA
- John Van Range Co., Cincinnati, OH
- Knoxville Iron Co., Knoxville, KY (*)
- La Pointe Machine Tool Co., Hudson, MA
- Ohmart Corp., Cincinnati, OH (*)
- Podbeilnac Corp., Chicago, IL
- Rogers Iron, Joplin, MO
- Oregon Metallurgical Corp., Albany OR
- Ohio State University, Columbus, OH (*)
- Stauffer Tenescal Co., Richmond, CA
- Tocco Induction Heating Division, Cleveland, OH
- Utica Drop Forge & Tool Co., Utica, NY
- Titanium Metals Corp. of America, Henderson, NV

In each case, the potential for radiological contamination above applicable guidelines is small. In each case the amounts of radioactive materials handled was small. In addition, those sites with an asterisk

were previously eliminated by referral to the U.S. Nuclear Regulatory Commission on May 14, 1986, because of their licensed status.

This is to ratify and confirm the prior elimination(s) of all of these sites and to document the reasons for their elimination.
