ATTN OF: EM-421 (W. A. Williams, 903-8149)
SUBJECT: Elimination of Sites from the Formerly Utilized Sites Remedial Action Program
TO: The File

The facilities listed below have been evaluated to determine if remedial action under the Formerly Utilized Sites Remedial Action Program (FUSRAP) is warranted. The evaluations consisted of record searches, interviews, site visits, and radiological surveys. Based on this information, which is summarized in the attached elimination reports, the Department of Energy has determined that the potential for contamination at these sites is low. Accordingly, these sites have been eliminated from further consideration under FUSRAP.

ALCOA Site
New Kensington, Pennsylvania

former New Jersey Zinc Storage Site
Palmerton, Pennsylvania

former McKinney Tool & Manufacturing Co.
Cleveland, Ohio
