SUBJECT: FORMERLY UTILIZED SITES NEAR NEW CANAAN, CT

E.A. Vierzba
FROM: E.A. Vierzba
BLDG: ROOM:
EXT:

Mr. John Mullaney (DOE) requested that we determine whether any formerly utilized sites might be in the area of New Canaan, CT. It appears that a member of the general public initiated the request as a means of verifying the quality of the neighborhood before buying a house.

Sites were identified in the nearby communities of Stamford and Bridgeport, CT, and Mt. Kisco and White Plains, NY. No sites were identified in New Canaan (based on present record holdings). This information was relayed to Mr. Mullaney on March 25, 1983.
