ATTN OF:

SUBJECT: Elimination of the Sites from the Formerly Utilized Sites Remedial Action Program

TO: The File

I have reviewed the attached site summaries and elimination recommendations for the following sites:

- Mitts & Merrel Co., Saginaw, Michigan
- North Carolina State University, Raleigh, North Carolina
- National Smelt & Refining, Cleveland, Ohio
- Sutton, Steele & Steele, Dallas, Texas
- Norfolk Naval Station, Virginia

In each case, the potential for radiological contamination above applicable guidelines is small. In each case the amounts of radioactive materials handled was small. Based on these considerations, these sites are hereby eliminated from further consideration under the Formerly Utilized Sites Remedial Action Program.
