Scheduling of SRE, Santa Susana, California

E. J. Jascewsky
Chicago Operations Office

As discussed during the meeting at DOE Headquarters on September 17, 1981, with Dr. R. Wynveen, Mr. W. Smith, and yourself, we concur with the schedule of activities relating to SRE, Santa Susana, California. Also, we confirm the telephone conversation of October 14, 1981, between Dr. Wynveen and Mr. A. Whitman regarding the collection of samples and information necessary to verify the results of the decontamination efforts of Atomics International as reported in their final radiological survey reports, AI-ERDA-13158 (Building 003) and AI-ERDA-13159 (KEWB Facility), and to complete the present site certification process.

As previously indicated, we concur with the comments in Dr. A. W. Sinclair's letter to the Manager, Chicago Operations Office, your attention, dated July 16, 1981.

If there are any questions, call me on 301-353-3016 or Mr. A. J. Whitman of my staff on 301-353-5439.
