Dear Mr. Fischer and Mr. Schneider:

Subject: **Transmittal of the September 2010 Fernald Site Inspection Forms**

The purpose of this letter is to transmit the completed forms for the September 2010 Fernald Preserve quarterly inspection. The September 2010 inspection was conducted at the Fernald Preserve as directed by the Comprehensive Legacy Management and Institutional Controls Plan (LMICP 2009). The inspection took place on September 8, 2010. It was conducted with participants from the S.M. Stoller Corporation, the Ohio Environmental Protection Agency (OEPA), and the Ohio Department of Health (ODH).

A field walk-down was conducted through the Lodge Pond basin, trail and savanna; the east field; the east perimeter between the On-Site Disposal Facility (OSDF) and the property fence line; the Area 1, Phase 1 Wetland; and the North Pines. Findings from this walk-down are documented on the enclosed Fernald Preserve Field Walk-down Inspection Form and associated map.

In addition to the field walk-down, point-specific institutional controls were inspected as well. Findings from this effort are documented on the enclosed Fernald Preserve Institutional Controls Inspection Form.

A key component of the inspections is the documentation of follow-up activities. Findings from site inspections, OSDF inspections, weekly trail inspections, and observations from Fernald Preserve personnel during day-to-day operations are entered into the enclosed Fernald Preserve Maintenance and Repair Action Items database. Resolution of findings is then tracked through this database. Items on the list are shaded once completed, with items completed prior to June 2010 hidden from view. Resolution of older findings can be found on previous quarterly

inspection reports. Debris findings are documented on inspection forms and the Maintenance and Repair Action Item database only if they are identified in a location outside of the former production, silos or waste pits areas.

If you have any questions or require additional information, please call me at (513) 648-3148.

Sincerely,

Jane Powell
