Authorization for Remedial Action at the Seaway Industrial Park and Ashland Oil Co. (I) Sites at Tonawanda, NY, and Mallinckrodt Chemical Co., St. Louis, MO *Barb*

J. LaGrone, Manager
Oak Ridge Operations Office

6/20/84

NE-20

We have determined that the subject sites are contaminated with residual radioactive material as a result of the Manhattan Engineer District/Atomic Energy Commission operations at those sites. The contamination is in excess of the acceptable guidelines and warrants some form of remedial action under the Formerly Utilized Sites Remedial Action Program. Attached for your information are fact sheets and the following reports on the subject sites.

Coffman

6/21/84

1. "Radiological Survey of the Seaway Industrial Park, Tonawanda, New York," May 1978 (DOE/EV-0005/6).
2. "Radiological Survey of the Ashland Oil Co. (Former Haist Property), Tonawanda, New York," May 1978 (DOE/EV-0005/4).
3. "Radiological Survey of the Mallinckrodt Chemical Works, St. Louis, Missouri," December 1981 (DOE/EV-0005/27).

It should be noted that a nearby second property belonging to Ashland Oil Company is not being designated at this time because the radiological survey could not be completed due to refusal of access by the owner.

If there are any questions, please call Mr. Arthur J. Whitman on FTS 233-5439.
