| OU15-A-000002 | 2/6/1992 |
| EG&G proposes to delete Environmental Evaluation (EE) in the production areas | |
| EG&G Rocky Flats, Inc. proposes to delete Environmental Evaluations (EE) for Operable Units (OUs) that are located at least partly within the Production Area [Industrial Area (IA)] (OU04, OU08, OU09, OU10, OU12, OU13, OU14, OU15, and OU16), and to treat this entire area as a "Source Term" for contaminants entering adjacent OUs. Most of these areas are paved and any vegetation present is either landscaping plants or weeds. The EEs for these are inappropriate. | |

| OU15-A-000005 | 3/10/1992 |
| Issue paper: Descoping of Environmental Evaluation (EE) Tasks | |
| Attachment 1 - Issue paper, Descoping of Environmental Evaluation (EE) Tasks, presents a mechanism for improving cost and schedule performance relative to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)/Interagency Agreement (IAG) Milestones while meeting biological regulatory liability requirements effectively. | |
| http://www.lm.doe.gov/cercla/documents/rockyflats_docs/OU15/OU15-A-000005.PDF | 128 KB |
| OU15-A-000006 | 4/21/1992 |
| Modification to Work in the Interagency Agreement (IAG) | |
| Modification to Work in the Interagency Agreement (IAG) - Pursuant to Part 32, Paragraph 191 (Additional Work or Modification to Work) of the IAG, the Colorado Department of Health (CDH), and US Environmental Protection Agency (EPA) hereby notify the US Department of Energy (DOE) that certain Individual Hazardous Substance Sites (IHSS) included in several Operable Units (OU), and the investigatory and remedial work associated with them, are now to be addressed as part of alternate OUs. The rationale for this change is that the listed IHSSs all constitute part of the Original Process Waste Lines (OPWL) and will be investigated and remedied as such. These changes were recommended by DOE in the now approved OU09 Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Work Plan (WP). [Changes: Individual Hazardous Substance Sites (IHSS) 122 from OU13 to OU09; IHSS 123.2 from OU08 to OU09; IHSS 124 from OU10 to OU09; IHSS 125 from OU08 to OU09; IHSS 126 from OU08 to OU09; IHSS 127 from OU08 to OU09; IHSS 132 from OU08 to OU09; IHSS 146 from OU08 to OU09; IHSS 147.1 from OU12 to OU09; IHSS 149 from OU08 to OU09; IHSS 159 from OU08 to OU09; and IHSS 215 from OU15 to OU09] | |

OU15-A-000010 8/6/1992

Development of a procedure to integrate the RFI/RI and Closure Plan for OU15

Development of a procedure to integrate the Resource Conservation Recovery Act (RCRA) Facility Investigation / Remedial Investigation (RFI/RI) and Closure Plan for OU15: Inside Building Closures. At the conclusion of the RFI/RI, the US Department of Energy (DOE), US Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) will evaluate the results to determine the necessity of a Interim Measure / Interim Remedial Action (IM/IRA) and, if necessary, implement it.

Transmits letter to expedited closure approval for Bench Scale Treatment Unit 32

Transmits the attached [000054] a draft letter to the Colorado Department of Health (CDH) and requests expedited closure approval for Bench Scale Treatment Unit 32. This unit has been used for cyanide treatment in the Building 881 General Laboratory. As part of the laboratory renovation project, it needs to be removed by June 1989. A Closure Plan was submitted to CDH on October 3, 1988. To date, the plan has not been approved.

OU15-A-000054 5/4/1989

Re expedited closure approval for Bench Scale Treatment Unit 32

Draft letter to the Colorado Department of Health (CDH) and requests expedited closure approval for Bench Scale Treatment Unit 32. This unit has been used for cyanide treatment in the Building 881 General Laboratory. As part of the laboratory renovation project, it needs to be removed by June 1989. Discusses why the failure to close Unit 32 in a timely manner will cause delays in the renovation of the General Laboratory in Building 881, and describes the Bench Scale Treatment Unit 32 for Cyanide Conversation.

The CDH approves OU09 EE TM. EE will act as model for other IA OUs.

The Colorado Department of Health (CDH) approves the Operable Unit OU09: Original Process Waste Lines (OPWL) Environmental Evaluation (EE) Technical Memorandum (TM). Not all of the OUs in the industrialized portion of the Rocky Flats Plant (RFP) are scheduled for a two-phase Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI). Therefore, since this EE will act as a model for the other IA OUs, and since this EE is currently structured in a two-phase investigation format, it will be up to the US Department of Energy, Rocky Flats Office (DOE/RFO) to initiate planning that can complete an entire EE for a one-phase RFI/RI OU.

Final Phase I Resource Conservation Recovery Act (RCRA) Facility Investigation / Remedial Investigation (RFI/RI) Work Plan (WP), Rocky Flats Plant (RFP) Operable Unit OU15: Inside Building Closures Report, January 1995 - Text. The specific objectives of the OU15 Phase I RFI/RI site investigation, as presented in the Work Plan (WP), are to {1} characterized site physical features; {2} define contaminant sources; {3} determine nature and extent of contamination; {4} describe contaminant fate and transport; and {5} provide a Baseline Risk Assessment (BRA). The following activities were completed for each Individual Hazardous Substance Site (IHSS) during the OU15 field investigations: a review of new and/or additional information, a visual inspection and documentation of current conditions at the IHSS, and sampling and analysis of surfaces within and around the IHSS. The sampling and analysis program included the collection of radiological and beryllium (Be) smear samples and hot water Rinsate samples (including verification samples). In addition, final radiological surveys were performed during the Stage I and II field investigations.

| OU15-A-000137 | 5/21/1993 |
| Re Milestone schedule for OU15 - Change | |
| The Interagency Agreement (IAG) schedule for Operable Unit OU15 includes submittal of the Draft and Final Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Reports due on August 1, 1994 and January 4, 1995 respectively. The scope of the OU15 process was changed in order to integrate the requirements of the OU15 Closure Plans previously submitted for OU15 Individual Hazardous Substance Sites (IHSS). Although Closure Plans are no longer necessary and a significant cost savings was realized, the rescoping process contributed to a delay in approval of the Phase I RFI Work Plan (WP) for OU15 from November 24, 1992 to March 8, 1993, which in turn has delayed fieldwork. | |

| OU15-A-000139 | 6/1/1993 |
| Forwards SOP Collection of Floor/Equipment Rinsate Samples for OU15 for review and approval | |
| Forwards the Standard Operating Procedure (SOP) for Collection of Floor / Equipment Rinsate Samples for Operable Unit OU15 for regulator review and approval. The OU15 Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Work Plan (WP) states that Volatile Organic Compounds (VOC) will be included in the analytical suite due to historical use of storage of VOCs in the OU15 Individual Hazardous Substance Sites (IHSS). However, VOCs are unlikely to be present at detectable levels with non-intrusive sampling methods on the floor surface. | |

| OU15-A-000140 | 6/14/1993 |
| CDH approval of SOP for Collection of Floor/Equipment Rinsate Samples for OU15 | |
| The Colorado Department Health (CDH) Hazardous Waste Management Division (HZMD) and the US Environmental Protection Agency (EPA) approve the Standard Operating Procedure (SOP) for Collection of Floor / Equipment Rinsate Samples for Operable Unit OU15. They further concur with the guidance contained in the accompanying letter, which would limit the collection of VOC samples to at least one per Individual Hazardous Substance Site (IHSS). An exception to this general guidance should be made, however, in the case of IHSS 204, the Original Uranium Chip Roaster. In this case, volatile and semi-volatile compounds are the main contaminants of concern and the various identified sample locations should be sampled separately. | |

| Re DOE/RFO approval of Phase I RFI/RI and SOP for Collection of Floor/Equipment Rinsate Samples for OU15 | |
| EG&G Rocky Flats, Inc. Quality Assurance (QA) indicates that documentation of US Department of Energy, Rocky Flats Field Office (DOE/RFFO) approval of the Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Work Plan (WP), and the Standard Operating Procedure (SOP) for Collection of Floor / Equipment Rinsate Samples for Operable Unit OU15 is required prior to the documents being accepted by EG&G Document control. Approval of the SOP and WP are critical path items with respect to the schedule for OU15 fieldwork. | |

| OU15-A-000142 | 9/16/1993 |
| OU15 perceived HASP violation - resolution | |
| Responding to ERM Rocky Mountain, Inc.'s (ERM) letter dated August 30, 1993. Based upon ERM's letter, it has been determined that a Health and Safety Plan (HASP) violation did not occur, and a qualified Health and Safety Officer (HSO) was provided by ERM during implementation of the Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Work Plan (WP) for Operable Unit OU15. The ERM communication problem, which resulted in the perceived HASP violation, is noted and ERM's resolution of the communication problem is also noted. | |

| Re IAG milestone schedule for OU15 | |
| In response to August 9, 1993 letter, the US Department of Energy (DOE) believes that discussions of milestone extensions or OU15 are premature. However, DOE Headquarters has agreed to review times concurrent with DOE/RFO in many cases, particularly when an Interagency Agreement (IAG) milestone is involved. It should be assumed at this time that the OU15 Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Report will be completed in accordance with Table 6 of the IAG. | |

| Provides DOE/RFO with info re removal of RCRA Unit 63 (B371, IHSS 212) from OU15 | |
| Provides US Department of Energy, Rocky Flats Field Office (DOE/RFFO) with information regarding the removal of Resource Conservation and Recovery Act (RCRA) Unit No. 63, Building 371 Drum Storage Area [Individual Hazardous Substance Site (IHSS) 212] from the Interagency Agreement (IAG) schedule for Operable Unit OU15. Removal was initiated due to the continued use of OHSS 212 as a drum storage area permitted as RCRA Unit 63 within the RCRA Mixed Waste Residue Permit for the Rocky Flats Plant (RFP). Closure of IHSS 212, with respect to Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) for which the US Environmental Protection Agency (EPA) is the Lead Regulatory Agency, will be accomplished via a CERCLA decision document (DD). | |

OU15-A-000177 10/14/1994

Preliminary Draft PP and Draft Modification of CHWA Permit, OU15

Preliminary Draft Proposed Plan (PP) and Draft Modification of the Colorado Hazardous Waste Act (CHWA) Permit for Rocky Flats Plant, Operable Unit OU15: Inside Building Closures. The preferred remedy is the "No Action" alternative for Individual Hazardous Substance Sites IHSS 178, 179, 180, 204, 211, and 217. There are no documented releases from the OU15 IHSSs and no identified routes for contamination to migrate out of the OU15 buildings. In addition, the IHSSs are maintained in a protective state for the individuals who work in and around them.

OU15-A-000182 2/11/1994

Minutes from October 13, 1994 meeting: EG&G, DOE/RFFO, CDPHE, and EPA

Meeting minutes from the January 24, 1994 meeting between EG&G Rocky Flats, Inc., the US Department of Energy, Rocky Flats Field Office (DOE/RFFO), the Colorado Department of Public Health and Environment (CDPHE) and the US Environmental Protection Agency (EPA). The purpose of the meeting was to go through the decisionlogic presented in Section 6.0 of the preliminary version of OU15 Phase I Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Technical Memorandum TM1.

OU15-A-000183 11/10/1994

Past due EPA comments re Draft Phase I RFI/RI WP

US Environmental Protection Agency (EPA) comments for the Draft Phase I Resource Conservation Recovery Act (RCRA) Facility Investigation / Remedial Investigation (RFI/RI) Work Plan (WP), Rocky Flats Plant (RFP) Operable Unit OU15: Inside Building Closures are past due. EG&G Rocky Flats, Inc. recommends a meeting to resolve comments on the Draft between EPA, US Department of Energy, Rocky Flats Field Office (DOE/RFFO) and the Colorado Department of Public Health and Environment (CDPHE). Past due comments must be received by November 10, 1994 to be included in final report.

| Encloses the Closure Strategy Paper for Operable Unit OU15 | |
| Encloses the Closure Strategy Paper for Operable Unit OU15: Inside Building Closures, which was prepared in response to a verbal agreement during the October 5, 1994 meeting between EG&G Rocky Flats, Inc., the US Department of Energy, Rocky Flats Field Office (DOE/RFFO), the Colorado Department of Public Health and Environment (CDPHE) and the US Environmental Protection Agency (EPA). Based on the results of fieldwork completed per the approved Phase I RFI/RI Work Plan (WP) for OU15 and presented within the Draft Phase I RFI/RI Report for OU15, "No Action" is necessary to be protective of human health and the environment at five of the six OU15 Individual Hazardous Substance Sites (IHSS). The exception is IHSS 204: the Original Uranium Chip Roaster, from which worker exposure could exceed the five (5) roentgen equivalent man (rem) per year standard promulgated by the US Department of Energy (DOE), the Atomic Energy Commission (AEC), and Nuclear Regulatory Commission (NRC). The Chip Roaster should be removed from the Interagency Agreement (IAG) schedule for OU15, it's future use for waste treatment evaluated, and its closure addressed as part of Building 447 National Conversion Pilot Program (i.e., economic development) and/or Decontamination and Decommissioning (D&D). | |

OU15-A-000206 4/7/1995

Draft PP and Draft Modification of CHWA Permit OU15

Draft Proposed Plan (PP) and Draft Modification of the Colorado Hazardous Waste Act (CHWA) Permit Operable Unit OU15: Inside Building Closures. The preferred alternative proposed in this Plan for OU15 consists of the following actions: [1] Clean Closure under Resource Conservation and Recovery Act (RCRA) for all six of the OU15 Individual Hazardous Substance Sites (IHSS); {2} a "No Action" decision for IHSSs 178, 211, and 217; and {3} a deferral of any actions at IHSSs 179, 180, and 204 until final disposition of their respective buildings (Buildings 865, 883, and 447).

OU15-A-000227

4/11/1995

Provides an explanation of date discrepancies

Provides an explanation of date discrepancies: The current CERCLA Administrative Record shows the Closure Strategy Paper (revised January 1995) officially transmitted to US Department of Energy, Rocky Flats Field Office (DOE/RFFO) on January 17, 1995 and the DOE/RFFO submittal to the regulatory agencies on January 6, 1995. The reason that the official EOD/RFFO transmittal of the Operable Unit OU15 Closure Strategy Paper occurred prior to EG&G Rocky Flats, Inc.'s official transmittal is that DOE/RFFO was informally provided with a copy of the document. DOE/RFFO chose to submit the document without receiving the formal transmittal from EG&G.

Transmits minutes from April 3, 1995 meeting

Transmits the Operable Unit OU15: Inside Building Closures, minutes from the April 3, 1995 meeting between the US Department of Energy, Rocky Flats Field Office (DOE/RFFO), EG&G Rocky Flats, Inc., Colorado Department of Public Health and Environment (CDPHE), and US Environmental Protection Agency (EPA). The meeting was conducted to discuss the Draft Proposed Plan (PP) / Draft Resource Conservation and Recovery Act (RCRA) Permit Modification submitted to DOE/RFFO on March 21, 1995. The approach as agreed during meeting discussions changes the approach from "No Action" to the following:

OU15 summary of meetings held March 27 and April 3, 1995

Operable Unit OU15 summary of meetings held March 27 and April 3, 1995. Meeting attendees included representatives from the US Department of Energy, Rocky Flats Field Office (DOE/RFFO), EG&G Rocky Flats, Inc., the Colorado Department of Public Health and Environment (CDPHE) and the US Environmental Protection Agency (EPA). The purpose identified for the March 27th meeting was to give CDPHE and EPA an initial opportunity to comment on the Draft OU15 Proposed Plan (PP), dated March 21, 1995. The purpose for the April 3rd meeting was to clarify the Price-Anderson Amendments Act of 1988 (PAAA), which was briefly discussed in the March 27th meeting.

Requests K-H certification of OU15 AR maintenance and completeness

Discusses the maintenance of the CERCLA Administrative Record (AR) for completeness prior to signing the Corrective Action Decision / Record of Decision (CAD/ROD) for Operable Unit OU15. Requests that K-H Independent Safety Oversight (KH) certify that the AR has been established and maintained as set forth in Subpart I of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), and provide such certification by September 11, 1995.

Provides signed OU15 CAD/ROD

Provides the attached, signed Corrective Action Decision / Record of Decision (CAD/ROD) for Operable Unit OU15: Inside Building Closures, August 1995. This CAD/ROD includes signatures from the US Department of Energy, Rocky Flats Field Office (DOE/RFFO), the Colorado Department of Public Health and Environment (CDPHE), and the US Environmental Protection Agency (EPA). According to the Interagency Agreement (IAG), DOE is now required to publish notice of the final remedy selected in this CAD/ROD.

OU15-A-000273 8/1/1995

CAD/ROD, OU15: Inside Building Closures, dated August 1995

Corrective Action Decision / Record of Decision (CAD/ROD), Operable Unit OU15: Inside Building Closures, dated August 23, 1995. The US Department of Energy (DOE) has determined that no remedial action is necessary to be protective of human health and the environment at IHSSs 178, 211, and 217 because they meet the clean closure requirements of the Rocky Flats (RF) Resource Conservation and Recovery Act (RCRA) Permit (RFRP) and the Federal occupational radiation protection standards. At IHSSs 179, 180, and 204, no remedial action is currently necessary, because they meet the clean closure requirements of the RFRP and the RF radiological control program is in compliance with Applicable or Relevant and Appropriate Requirements (ARARs) / To Be Considered (TBC) criteria and other identified protective standards. Future Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) actions may be required at the time of ultimate disposition of the buildings. Because the remedy will not result in hazardous substances remaining onsite above ARARs, TBCs, or protective standards, a five (5) year review is not required.

Decision Declaration Replacement Pages for OU15 and OU16

The Colorado Department of Public Health and Environment (CDPHE) Hazardous Waste Management Division (HZMD) is hereby issuing replacement pages for the Rocky Flats Environmental Technology Site (RFETS) Hazardous Waste Permit. The enclosed declarations summarize the Corrective Action Decision / Record of Decisions (CAD/ROD) as agreed to by the US Department of Energy, Rocky Flats Field Office (DOE/RFFO), the CDPHE, and the US Environmental Protection Agency (EPA), for Operable Units OU15 and OU16. The enclosed pages will replace pages 24 and 25 of Table 6, Milestone Schedules (Section XV of the RFETS Permit) for OU15 and OU16.

OU15-A-000275 1/8/1996

Discusses no need for further RFEDS entries into the OU15 AR

Advises that all pertinent data, including Chain of Custody (COC) references, used in determining the Selected Remedy of Operable Unit OU15 was included in the Final OU15 Resource Conservation Recovery Act (RCRA) Facilities Investigation / Remedial Investigation (RFI/RI) Report appendices, which is already part of the CERCLA Administrative Record (AR). Therefore, the necessary Rocky Flats Environmental Data Systems (RFEDS) information currently exists in the AR and there is no need for further AR entries on this topic.
