

PUBLIC MEETING NOTICE

The United States Department of Energy and The Missouri Department of Natural Resources

will conduct a Public Meeting August 16 at 7:30 p.m. at The Columns Conference Center, 711 Fairlane, located near the intersection of Highway 94 and Interstate 70, St. Charles.

Purpose of the meeting is to give residents of St. Charles County and St. Louis County the opportunity to provide comment and input to plans for the next major step in the Weldon Spring cleanup. Under discussion will be plans for treatment of water impounded at the site of the former Uranium Feed Materials Plant and the permit to discharge treated water to the Missouri River.

Copies of a government document, the Engineering Evaluation/Cost Analysis (EE/CA), describing the plans in detail are now available for review at the following branches of the St. Charles City-County Library District: Spencer Road, Kathryn M. Linneman and Kisker Road. The EE/CA also is available at the Francis Howell High School Library and the Public Reading Room at the Weldon Spring Site Remedial Action Project, 7295 Highway 94 South.

An Informational Bulletin, outlining plans described in the public document, is available at the libraries listed above and at the Weldon Spring Site Remedial Action Project Community Relations office. Telephone: 441-8086.

The public is encouraged to review the document, attend the meeting, ask questions and provide comments. Written comments postmarked by August 27, 1990, will become part of the official Administrative Record and will be considered in the decision making and permitting processes. Comments should be sent to Mr. Stephen H. McCracken at the Weldon Spring Site Remedial Action Project, 7295 Highway 94 South, St. Charles, MO 63303.

Also available for public review and comment will be the draft National Pollutant Discharge Elimination System (NPDES) permit. Copies of the draft NPDES permit can be obtained from Mr. Robert Hentges at the Missouri Department of Natural Resources, P.O. Box 176, Jefferson City, MO 65102, and comments on the draft permit can be made to the same address. Comments on the draft permit should be made by September 4. Comments on the draft NPDES permit will be considered by the Missouri Department of Natural Resources before a final decision is made on the permit issuance, modification, or denial.
