FMPC ANSWERS QUESTIONS FROM RI/FS TOWN MEETING *May 15*

FERNALD, OHIO June 22 -- Responses to questions raised at a May 15 U. S. Department of Energy community meeting on the Remedial Investigation/Feasibility Study at the Feed Materials Production Center are now available in the FMPC's public reading rooms.

The questions were raised during a series of technical presentations and an open forum session at the end of the May meeting. While many questions were addressed at the meeting, some responses required additional research to provide more complete answers.

In addition to questions from the floor, several persons attending the meeting completed comment cards with other questions about the RI/FS process and other FMPC operations. Responses to those questions have been mailed directly to the parties who asked for the information.

FMPC ANSWERS QUESTIONS FROM RI/FS TOWN MEETING

-2-

A summary of both questions from the floor and from comment cards received after the meeting has been placed in the reading room at the FMPC Administration Building and the reference section at Lane Public Library, Third and Buckeye Sts., in Hamilton. The questions and responses also will be published in the next issue of FMPC Update neighbor newsletter.
