Route: See & P. to F&E from project #12

Dear Sir:

PROPOSED ADMINISTRATIVE RECORD FILE ANNEX - BUILDING 14

Reference: Letter, WMCO:C:90-037, P. C. Weddle to R. J. Hansen, "same subject", dated March 12, 1990

The purpose of this letter is to respond to the above reference which requests DOE approval for plans to add a subproject for an Administrative Record File Room Annex into Phase V of the EHSI Line Item.

In order to ensure compliance with the Consent Agreement under CERCLA sections 120 and 106A, the National Contingency Plan (40 CFR 300.800 Subpart I to facilitate requirements on RCRA, CERCLA, SARA/OSHA training and to respond to the findings of the Technical Safety Appraisals (TSA) and the DOE Tiger Team findings, the DOE Site Office concurs with the need for such a facility at the FMPC.

It is our understanding that some of the features of this facility will be to store the public copy of the Administrative Record file, the control copy file, microfilm capabilities, duplicating equipment to provide the U.S. EPA Region V in Chicago a copy of all records, copying equipment for the public's use, electronic data capabilities for ease of retrieval and filing of the Administrative Record documents, and meeting rooms for the multipurpose of training and community interface.

Therefore, WMCO should proceed with a Conceptual Design Document for such a facility and ensure that sufficient data is available for support at the Project Validation meetings in May of this year for further review and approval for this subproject by the Headquarters personnel.

If you have any questions, please call Wayne Pasko, of my office,
at extension 6724.

Sincerely,

Raymond J. Hansen
Contracting Officer's
Representative
