Re: Removal #3
U.S. DOE-Fernald
OH6 890 008 976

Dear Mr. Davis:

The United States Environmental Protection Agency (U.S. EPA) acknowledges the receipt of your June 14, 1990, request for a forty-five (45) day extension to the thirty (30) days allowed for submission of a revised draft Engineering Evaluation and Cost Analysis (EE/CA) for removal #3, the south groundwater contaminant plume. A revised EE/CA was to have been submitted to U.S. EPA by June 17, 1990.

The first draft of the EE/CA was submitted to U.S. EPA on April 16, 1990. A Notice of Availability was published on April 13, 1990 and a thirty (30) day public comment period began on April 17, 1990. On May 17, 1990, U.S. EPA provided comments to the United States Department of Energy (U.S. DOE) regarding the April 16th submittal. On May 18, 1990, the Ohio Environmental Protection Agency (OEPA) also provided comments. At the request of the Paddy's Run Road Site Responsible Parties and a member of the citizen's group, U.S. DOE extended the public comment period an additional thirty days to June 17, 1990.

Considering that U.S. EPA provided comments on a preliminary draft of the EE/CA, U.S. DOE has had U.S. EPA's comments since May 17, 1990, and that many of U.S. EPA's comments did not change significantly from the preliminary draft comments, U.S. EPA is granting an extension of fifteen (15) days for submission of a revised draft EE/CA that addresses U.S. EPA's, OEPA's, and the public's

Library

comments. The deadline for submission of the EE/CA is extended from June 17, 1990 to July 2, 1990. A copy of the public comments on the draft EE/CA should be submitted to U.S. EPA with the revised draft EE/CA.

Please contact me at (312) or FTS 886-4436, if there are any questions.

Sincerely,

A handwritten signature in cursive script that reads "Catherine A. McCord". The signature is written in black ink and is positioned to the right of the word "Sincerely,".
