Mr. W. H. Britton, President
Westinghouse Materials Company
of Ohio
P. O. Box 398704
Cincinnati, OH 45239-8704

Dear Mr. Britton:

REMOVAL ACTION MEMORANDUM: CONTAMINATED SOILS ADJACENT TO SOLID WASTE INCINERATOR AT THE SEWAGE TREATMENT PLANT

Reference: Letter, DOE-930-90, R. J. Hansen to M. B. Boswell,
"CERCLA Removal Actions," dated April 23, 1990

The enclosed Removal Site Evaluation for contaminated soils adjacent to the solid waste incinerator at the sewage treatment plant has been reviewed by my office. Based on this review, DOE has determined that this project constitutes a time-critical removal action. The Administrative Record file for the Removal Action should include this document.

WMCO should proceed to complete the necessary actions to accomplish the following:

- 1) Control access to area adjacent to the solid waste incinerator for personnel and livestock until the area of contamination is fully defined and quantified.
- 2) Define and quantify the radiological and chemical constituents in the soils adjacent to the solid waste incinerator by performing additional soil and vegetation sampling and a radiation survey.
- 3) Complete an evaluation of available removal action alternatives to address the affected soils and identify a recommended alternative for possible implementation. Cost and schedule information should be included.

The evaluation should be transmitted to my office within 30 days of DOE approval of this Removal Action Memorandum.

If you have any questions, please contact Carlos J. Fermaintt at extension 6157.

Sincerely,

Gerald W. Westerbeck
EMFC Site Manager
