Mr. W. H. Britton, President
Westinghouse Materials Company of Ohio
P. O. Box 398704
Cincinnati, Ohio 45239-8704

Dear Mr. Britton:

REMOVAL ACTION MEMORANDUM: WASTE PIT 6 EXPOSED MATERIAL

Reference: Letter, DOE-930-90, R. J. Hansen to M. B. Boswell,
"CERCLA Removal Actions," dated April 23, 1990

The enclosed Removal Site Evaluation for the Waste Pit 6 exposed material has been reviewed by my staff. Based on this review, we have determined that this project constitutes a time critical removal action as defined in the referenced letter. The Administrative Record for the Remedial Investigation/Feasibility Study (RI/FS) should include this document.

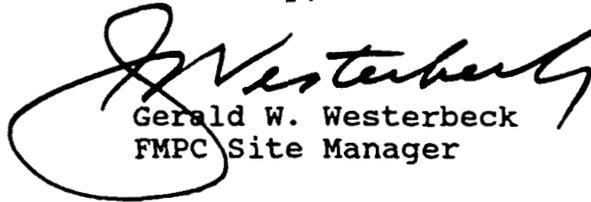

WMCO should work cooperatively with my staff to complete the following tasks to implement this action:

1. Evaluate alternatives to eliminate the inhalation hazard from Waste Pit 6.
2. Establish a preferred method for the removal action and develop a work plan and schedule.
3. Implement control measures to prevent release and spread of contamination.
4. Initiate an air sampling program to quantify the extent of air emissions in the Waste Pit Area.

Please submit an evaluation of alternatives and recommend a method of removal within 15 days of receipt of this letter and prepare a work plan for submittal to the U.S. EPA within 30 days.

If your staff has any questions, please ask them to contact Oba Vincent, at extension 6937.

Sincerely,

Gerald W. Westerbeck
FMPC Site Manager
