DEC 20 1990

DOE-463-91

Ms. Catherine A. McCord, Remedial Project Director  
U. S. Environmental Protection Agency  
Region V - 5HR-12  
230 South Dearborn Street  
Chicago, IL 60604

Dear Ms. McCord:

**PHASE I TREATABILITY STUDY FOR OPERABLE UNIT 4**

Reference: Letter, C. A. McCord to A. P. Avel, "OU#4 -  
Treatability Study U.S. DOE - Fernald OH6 890 008  
976," dated November 21, 1990

DOE has reviewed the U.S. EPA comments on the Phase I  
Treatability Study Work Plan for Operable Unit 4 (Referenced  
Letter) and also has reviewed the scope of work and schedule for  
this activity. Based on this review DOE has decided to focus  
attention and resources at obtaining the sampling data that is  
currently scheduled and to perform the treatability study in one  
phase instead of two, as was the plan. This Bench Scale  
Treatability Study will be performed following the residue  
sampling which is currently underway.

The Treatability Study Work Plan will be revised to reflect the  
single-phase Bench Scale Study. The work plan will be submitted  
to U.S. EPA for review in February, 1990.

If you have any questions, please contact Jack Craig at FTS 774-  
6159.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew P. Avel".

Andrew P. Avel  
FMPC Remedial Action  
Project Director
