Dear Sir:

VIOLATION OF NESHAP NOTIFICATION REQUIREMENTS

Attached please find the Southwestern Ohio Air Pollution Control Agencies warning letter of violation for notification requirements per 40 CFR Part 61 - Subpart M - Asbestos NESHAP - Paragraph 61.146.

This failure of advanced notification for asbestos removal is symptomatic of a serious lack of communication within WMCO's project management and environmental compliance departments.

I would like to see what measures will be undertaken by WMCO management to remedy this serious lack of communication. Please provide your response to my office within one week of your receipt of this letter. Should you require any additional information, please contact Mary Stone of my staff at extension 6656.

Sincerely,

James A. Reafsnnyder
