Ms. Catherine A. McCord
Remedial Project Director
U. S. Environmental Protection Agency
Region V - 5HR-12
230 South Dearborn Street
Chicago, IL 60604

Dear Ms. McCord:

ADDENDA TO REMEDIAL INVESTIGATION (RI) WORK PLAN - QUALITY ASSURANCE PROJECT PLAN (QAPP)

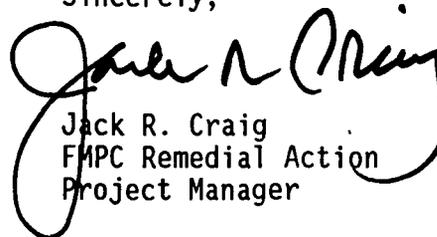

This letter transmits the enclosed addenda to the QAPP portion of the RI Work Plan.

As we have discussed, the revisions contained in this addenda have been approved by the Department of Energy (DOE) and require approval by the U. S. Environmental Protection Agency. To facilitate your review, I have enclosed a Document Change Request (DCR) status log, which lists and explains each addendum and the impact to the program that would result from your disapproval. (The DCR # is an internal identification number and has no significance to your office).

DOE is evaluating all data being collected by the FMPC and its use with special emphasis on its support to the Remedial Investigation/Feasibility Study (RI/FS). The objective of this evaluation is to prepare a revision to the QAPP that will define data quality levels and collection requirements for all data used to support the RI/FS, Removal Actions, Remedial Design, and Remedial Actions. We anticipate this activity taking several months to complete and are targeting early summer for submission to you for approval.

If you have any questions, please contact Andy Avel at FTS 774-6161.

Sincerely,

Jack R. Craig
FMPC Remedial Action
Project Manager
