Chicago, IL 60604

Mr. Graham E. Mitchell, DOE Coordinator
Ohio Environmental Protection Agency
40 South Main Street
Dayton, OH 45402

Dear Ms. McCord and Mr. Mitchell:

RISK ASSESSMENT - PROPOSED PLAN ADDENDA TO REMEDIAL INVESTIGATION (RI) AND FEASIBILITY STUDY (FS) WORK PLANS

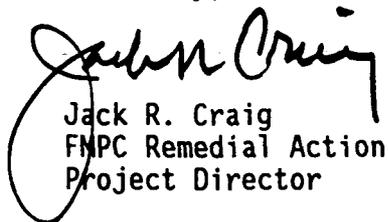

This letter is to explain the Department of Energy's (DOE) plans to resolve the issues, which have been raised in the U. S. Environmental Protection Agency's (EPA) and Ohio EPA's (OEPA) comments on the Initial Screening of Alternatives (ISA) document for Operable Unit (OU) 2.

DOE plans to prepare an addendum to the RI Work Plan, which will describe the Feed Materials Production Center's (FMPC) procedure for developing the site wide risk assessment. An addendum to the FS Work Plan will be prepared, which will describe the FMPC procedure for establishing remedial action objectives, identifying and achieving compliance with Applicable or Relevant and Appropriate Requirements, and establishing and meeting risk objectives. Both of these addenda are scheduled to be submitted to U. S. EPA and OEPA for approval by June 21, 1991.

DOE proposes to address the concerns U. S. EPA and OEPA have expressed in the ISA for OU 2 with the risk assessment process in these addenda. DOE suggests that the resolution of the dispute for the OU 2 ISA be terminated subject to the commitment to submit the RI and FS Work Plan addenda, as previously described on June 21, 1991.

If you have any questions concerning this matter, please contact Andy Avel at FTS 774-6161.

Sincerely,

Jack R. Craig
FMPC Remedial Action
Project Director
