Dear Ms. McCord and Mr. Mitchell:

RELOCATION OF SOUTH PLUME WELL FIELD

Reference: Letter, Graham E. Mitchell to Jack Craig, "Same Subject," dated
May 2, 1991

In the referenced letter, status was requested for the progress on relocating the South Plume Removal Action extraction well field. A field survey of the project area was made on March 19, 1991. The results of the survey (see Enclosure) indicated that there is one readily and conveniently accessible area in which to place the relocated well field.

To date, several iterations of proposals for the additional Scope of Work (SOW) required to address this effort have been prepared and subsequently rejected for various reasons. Recent meetings have brought all interested parties close together on agreement as to what the SOW should be. A final draft of the SOW is expected to be ready later this week.

It is our intention to forward a copy of this plan to both U.S. EPA and Ohio EPA by close of business Friday, May 17, 1991. We would then like to meet with both groups at 9:30 a.m. on Wednesday, May 22, 1991, at the Ohio EPA Dayton Office to review the SOW and discuss any concerns you may have.
