Columbus, Ohio 43266-0149

Dear Mr. Crepeau:

TRANSMITTAL OF ADDENDUM TO CLOSURE PLAN FOR TANKS T-5 AND T-6

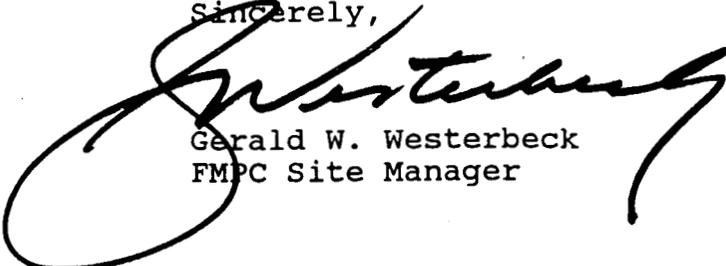

Enclosed is an addendum to the RCRA closure plan for tanks T-5 and T-6 submitted to your agency by a June 8, 1990 letter (G. W. Westerbeck to T. Crepeau). This addendum includes information on the two tanks gleaned from our search for operational records noted in the June 8 letter.

Based on the additional information provided in the enclosure, minor changes in the closure plan are warranted. These changes are described in Section 6.0 of the enclosure. In summary, the changes include additional sampling and analysis of equipment that could have been contacted by the contents of T-5 and T-6 and relocation of two of the proposed soil borings adjacent to the tank containment structure. Should the results of sampling and analysis of the additional equipment indicate that the equipment did indeed receive hazardous waste, we will decontaminate and manage the equipment in the same manner as that described for T-5 and T-6 in the June 1990 closure plan.

We look forward to approval of the closure plan as modified by the enclosed addendum.

If you have any questions, please contact David Rast, of my staff ¹⁶⁸⁴
at (513) 738-6322.

Sincerely,

Gerald W. Westerbeck
FMPC Site Manager
