RE: OU#2 - Alt Screening
U.S. DOE - Fernald
OH6 890 008 976

Dear Mr. Craig:

On October 12, 1990, the United States Department of Energy (U.S. DOE) submitted a proposed Initial Screening of Alternatives (ISA) for Operable Unit #2 to the United States Environmental Protection Agency (U.S. EPA) for review and approval. U.S. EPA disapproved this document on November 20, 1990. After requesting a 20-day extension, U.S. DOE submitted a revised draft ISA report on January 9, 1991.

Based on a 30-day review period, U.S. EPA's review of this revised document is due today. U.S. EPA is taking an additional four (4) days to review this revision due to the two meetings with U.S. DOE scheduled for this week.

Please contact me at (312/FTS) 886-4436, if you have any questions.

Sincerely,

Catherine A. McCord
Remedial Project Manger
