Mr. W. H. Britton, President
Westinghouse Materials Company
of Ohio
P. O. Box 398704
Cincinnati, OH 45239-8704

Dear Mr. Britton:

WESTINGHOUSE MATERIALS COMPANY OF OHIO (WMC) INTEGRATING RESPONSIBILITIES

As part of DOE efforts to restructure the management of the CERCLA program activities for the FMPC, WMC is hereby assigned the role of "integrator" of all environmental restoration activities, this includes delegation of the contract technical monitor responsibilities for the Advanced Sciences, Inc. contract number DE-AC05-86OR21659; WMC currently provides contract administration oversight for this contract. The Contracting Officer's Representative responsibilities for the Ralph M. Parson's contract number DE-AC05-90OR21951 will be assigned to WMC. This action will take place after the current letter contract with Parsons is definitized. DOE will assign these contracts to WMC, in the near future. Until these assignments are made, WMC is to assume the lead coordination role of all CERCLA activities in full support of DOE. ASI, Inc. and Parsons will report to WMC for direction on all day-to-day activities.

DOE will continue to have the lead role in regulatory interactions; however, WMC is expected to be an active participant and to provide technical support for these interactions. WMC should continue implementation of organizational realignments necessary to support the integrator role and to proceed with the acquisition of any CERCLA expertise required. ASI, Inc. and Parsons are expected to cooperate fully in the CERCLA program restructure.

With each organization participating as a fully cooperating member in a team approach, we can all expect future success in our remediation of the FMPC.

If you or your staff have any questions, please contact me at (513) 738-6319 or William Winn at (513) 738-6155.

Sincerely,

Gerald W. Westerbeck
FMPC Site Manager
