Dear Mr. Westerbeck:

On July 5, 1991, this office received information by WMCO facsimile transmission regarding scheduled construction activity in Hazardous Waste Management Unit (HWMU) areas at the FMPC. WMCO proposes to relocate Venturi Scrubber Tank D-43, (a component of the Plant 8 Primary Calciner HWMU) in order to facilitate placement of new equipment. This office concurs with the proposal as outlined.

OEPA comment on a second HWMU (C.P. Storage Warehouse) scheduled for construction activity in 1992, is being deferred until further information is made available.

Should you have questions regarding this correspondence, please contact me at (513) 285-6090.

Sincerely,

Phillip C. Harris
