Mr. Graham Mitchell
Ohio Environmental Protection Agency
40 South Main St.
Dayton, Ohio 45402

Dear Mr. Mitchell:

**GENERATOR, FACILITY, WASTE MINIMIZATION AND GROUND WATER ASSESSMENT
ANNUAL REPORTS, CALENDAR YEAR 1989**

As addressed to your office in a telephone conversation March 1, 1990, the FMPC Annual Reports issuance will be delayed past March 1, 1990, because they have been forwarded to the Oak Ridge Operations Office for signature.

As you were also informed in this conversation, technical deficiencies exist with the Facility portion of the annual report.

The "suspect" RCRA drums at the site were not included in the report and the statistical analysis of the ground water monitoring data has not been completed. The deficiencies are currently being corrected and will be submitted May 7, 1990. Every effort will be made to have this information to your office prior to the dates noted.

If you have any questions or require additional information, please contact David Rast, of my staff, at 513-738-6170.

Sincerely,

A handwritten signature in cursive script that reads "Ray Hansen".

Raymond J. Hansen
Acting FMPC Site Manager
