Cincinnati, Ohio 45239-8705

RE: Approval of Modifications to the  
Groundwater Sampling System

Dear Mr. Craig:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the modifications to the groundwater monitoring system at the Feed Materials Production Center (FMPC) proposed by the United States Department of Energy on July 2, 1991.

U.S. EPA hereby approves the changes to the existing groundwater monitoring system. However, U.S. DOE must submit information regarding which wells will be retrofitted and the extent of the retrofiting.

If you have any questions regarding the above matter please contact me at (FTS/312) 886-0992.

Sincerely,

James A. Saric  
Remedial Project Manager
