Dear Mr. Craig:

The purpose of this letter is to approve the Perched Groundwater Removal Action Plant 8 Treatment System Sampling Plan. We also have the two comments listed below that should be addressed:

1. Define "TRP" within the sampling plan.
2. Define the procedure to be used in determining the constituents to be included in a shortened HSL/TRP list. This shortened list should be reviewed by Ohio EPA and U.S. EPA prior to implementation.

If you have any questions, please contact me.

Sincerely,

Graham E. Mitchell
Project Manager
