Dear Mr. Westerbeck:

Under conditions outlined in the December 1988, Consent Decree between the State of Ohio and U.S. DOE, we have estimated response costs that the state will incur relating to the FMPC studies and cleanup during federal fiscal years 1992 and 1993. These estimates are less precise this year due to the uncertainty that currently exists in the remedial schedule.

If you have any questions about these estimates please contact me.

Sincerely,

*Graham E. Mitchell*
