Dear Mr. Saric:

ADMINISTRATIVE RECORD DOCUMENT CHANGES

A recent internal audit of the Feed Materials Production Center (FMPC) Administrative Record disclosed a need for several adjustments to documents within the files.

- Document number R-008-401.1 was a duplicate of document number R-008-104.1. Document R-008-401.1 has been deleted.
- Document number R-008-202.2 was assigned to a document which had been deleted from the record. Document number R-008-202.3 has been reassigned the number R-008-202.2 to provide better continuity in the numbering system.
- Document number R-008-201.2 was inadvertently assigned to two separate documents. One document (catalog number 276) has been reassigned document number R-008-201.3.
- All documents contained within the Perched Water Pumping file (R-002) were cross-referenced to Operable Unit 1. They are now cross-referenced to Operable Unit 3.

Please inform me of convenient dates when a representative from the FEMP Administrative Record staff may be sent to your office to implement the above changes, and perform an audit to ensure that the U.S. EPA copy of the Administrative Record files accurately reflects the contents of the FEMP controlled copy.

If you have any questions, please contact Oba Vincent at 774-6937.

Jack Craig
