Mr. W. H. Britton, President
Westinghouse Environmental Management
Company of Ohio
P. O. Box 398704
Cincinnati, Ohio 45239-8704

Dear Mr. Britton:

REMOVAL SITE EVALUATION - DUPLEX OFFICE TRAILERS PROJECT, PA#00-91201

Reference: Letter WEMCO:EMT:91-536, S. W. Coyle to R. E. Tiller, same
subject, dated September 24, 1991

The enclosed Removal Site Evaluation (RSE) for the Duplex Office Trailers project has been reviewed by my office. Based on this review, DOE has determined that this project does not constitute a removal action.

Construction rubble and debris associated with this project can be removed and dispositioned following the specific control measures noted within the RSE document and per the radiological guidelines specified in the FMPC Site Policy and Procedure, FMPC-720. The Administrative Record for the RI/FS should include this document. A final report shall be issued which addresses the volume of excavated soil, number of soil and rubble boxes generated, and the results of verification sampling.

If your staff has any questions, please ask them to contact R. J. Janke at extension 6883.

Sincerely,

A handwritten signature in cursive script that reads "R. E. Tiller".

R. E. Tiller
Manager

FO:Janke

Enclosure: As stated
