Dear Mr. Saric and Mr. Mitchell:

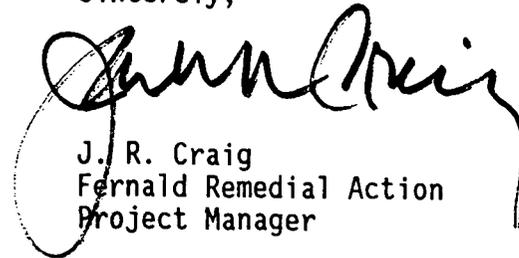

OPERABLE UNIT 4 TREATABILITY WORK PLAN

Enclosed for your review and approval is the revised Operable Unit 4 Treatability Work Plan. As discussed in the October 1, 1991 conference call, an addendum to the plan which will address the measurement of radon in the leachate will be submitted for your approval on October 8, 1991.

Your review comments and/or approval is requested by November 5, 1991. In the interim, DOE has directed ASI/IT to proceed with the treatability studies, at risk, to assure that the Consent Agreement milestones will be met.

If you or your staff have any questions or comments, please contact Randi Allen at FTS-774-6158 or (513) 738-6158.

Sincerely,

J. R. Craig
Fernald Remedial Action
Project Manager
