DOE-005-92

Mr. W. H. Britton, President
Westinghouse Environmental Management
Company of Ohio
P. O. Box 398704
Cincinnati, Ohio 45239-8704

Dear Mr. Britton:

REMOVAL ACTION MEMORANDUM: ACTIVE FLY ASH PILE CONTROLS

The enclosed Removal Site Evaluation for the proposed Active Fly Ash Pile Controls Removal Action has been reviewed by my office. Based on this review and information from the USEPA/DOE Consent Agreement renegotiations, DOE has determined that this project constitutes a time-critical Removal Action as defined in the National Contingency Plan. The Administrative Record for the Remedial Investigation/Feasibility Study (RI/FS) should include this document.

WEMCO and the DOE Site Office should cooperatively work to complete the following tasks to implement this action.

1. Evaluate alternatives to reduce fugitive dust emissions and uncontrolled stormwater run-off from the ash pile.
2. Establish a preferred methodology to implement the Removal Action and develop a draft Work Plan and Schedule. Per the renegotiated Consent Agreement, the Work Plan is due to the U.S. EPA by March 2, 1992, for review and approval.
3. Implement control measures to mitigate release and spread of contamination.

WEMCO should submit an evaluation of alternatives and recommend a method(s) of control within 60 days of the date of this letter.

If you have any questions, please contact J. W. Reising of my staff at extension 9083.

Sincerely,

R. E. Tiller
R. E. Tiller
Manager
